

- The chart uses too many colors
- The chart does not contain a color legend
- There is nothing wrong with the chart
- The chart contains repeated axes

What is wrong with the following parallel coordinates plot?

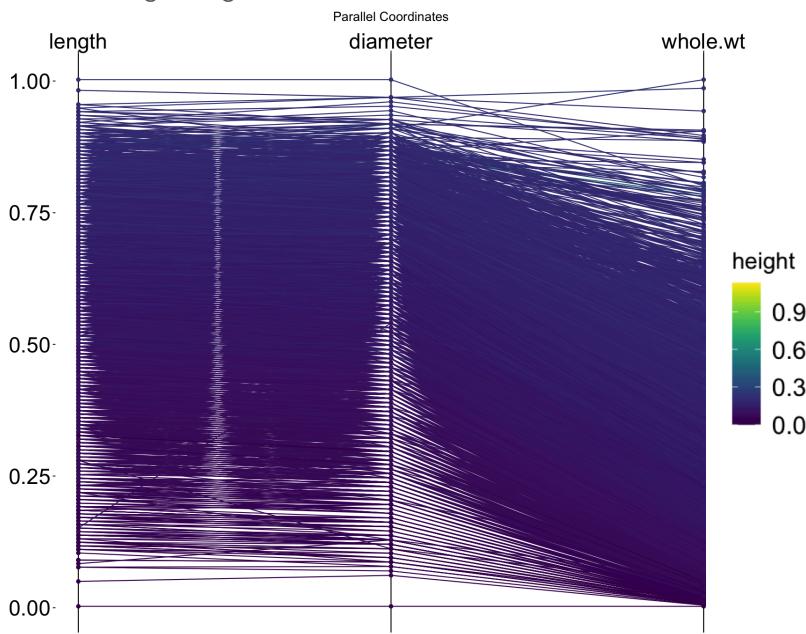

- The axis labels are the wrong color
- The chart does not use color
- The axis labels are too small
- The chart is missing the minimum and maximum values on the axes
- The axis labels are too cluttered and illegible/unreadable

What is wrong with the following parallel coordinates plot?

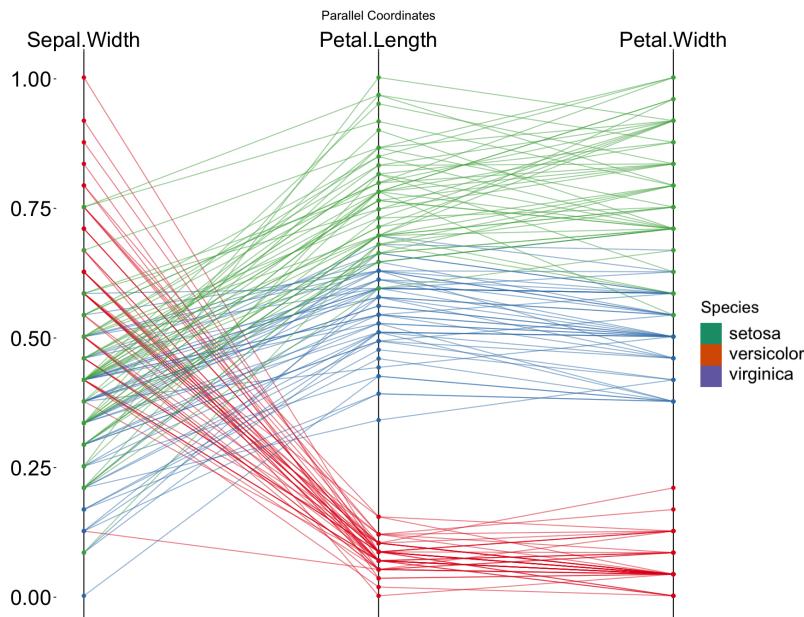

- The data labels on each axis are too small
- There is nothing wrong with this chart
- The axis labels are too small
- The chart does not use color

Name one thing wrong with this chart.

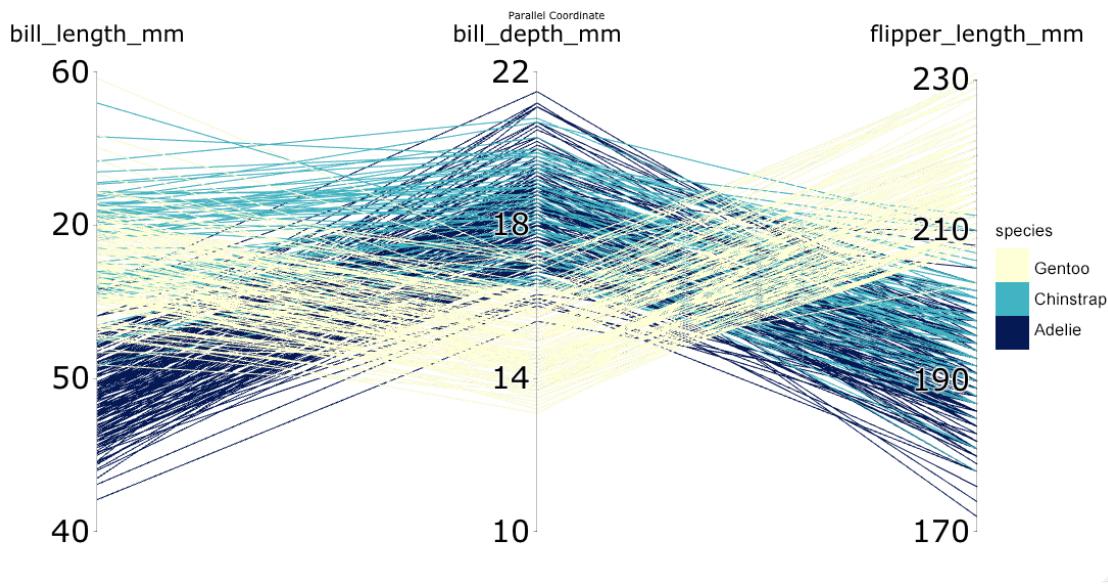

- There is too much data/clutter on this chart
- There are too many variables on this chart
- There is nothing wrong with this chart
- The legend is incorrect

What is wrong with this chart?

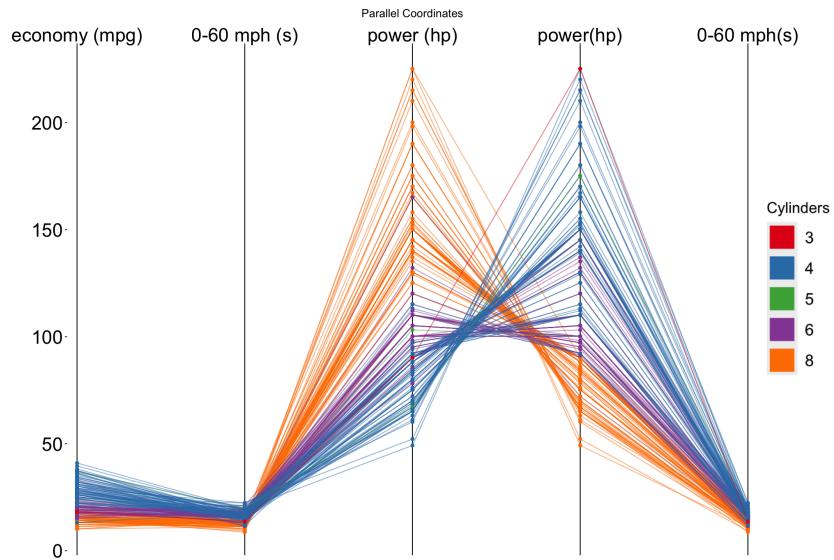

- The slope of the edges is too high
- There is too much data on the chart
- There is nothing wrong with this chart
- The color legend is wrong

Find the problem with the following chart.

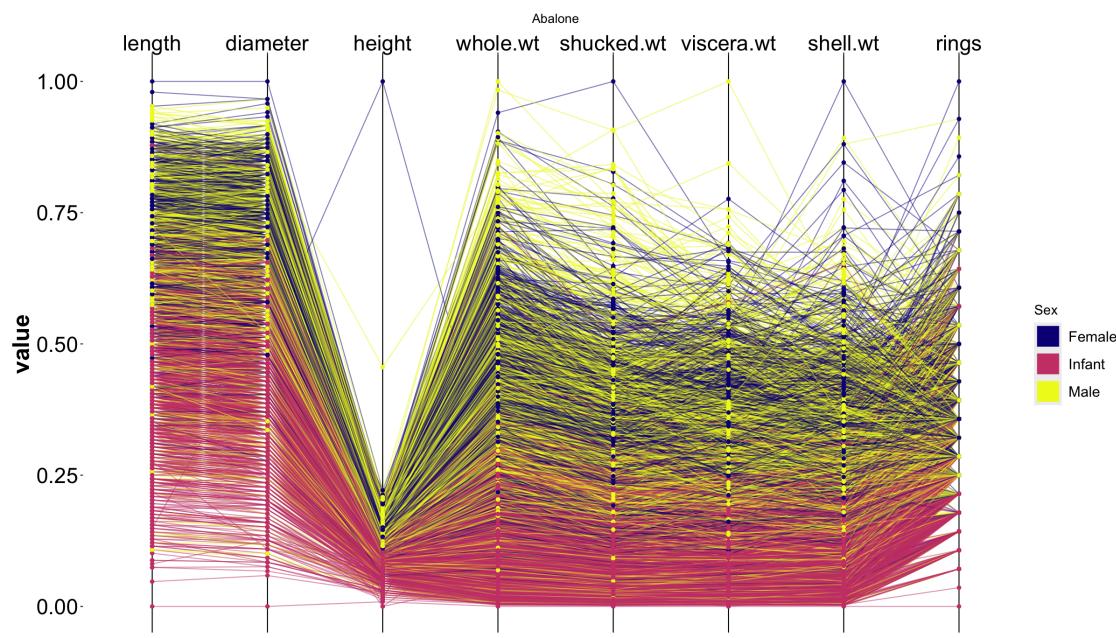

- There is too much data on this chart
- There is nothing wrong with the chart
- The axis labels for one of the axes is not in order
- This chart has too many colors

What is wrong with the following parallel coordinates plot?

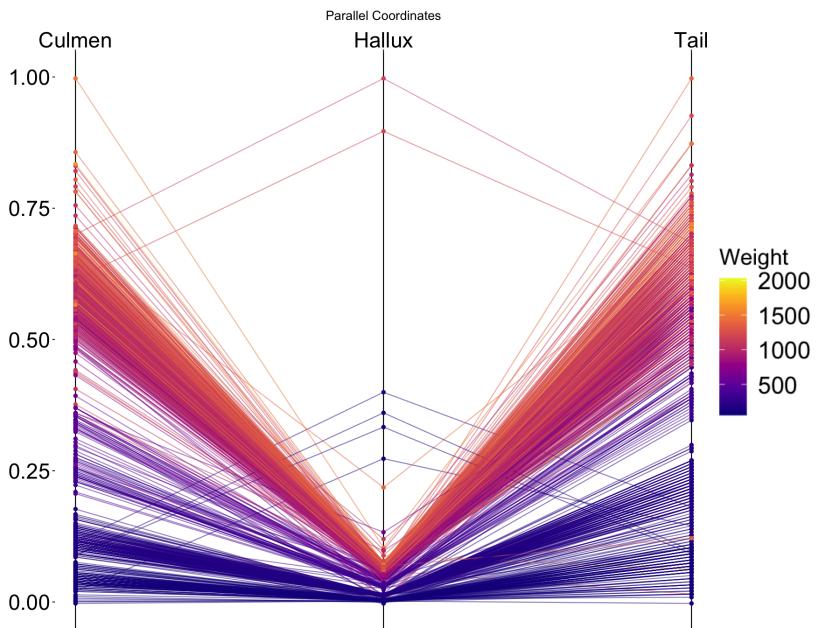

- The chart contains repeated axes
- The chart uses too many colors
- The chart does not contain a color legend
- There is nothing wrong with the chart above

Name one problem with this chart.

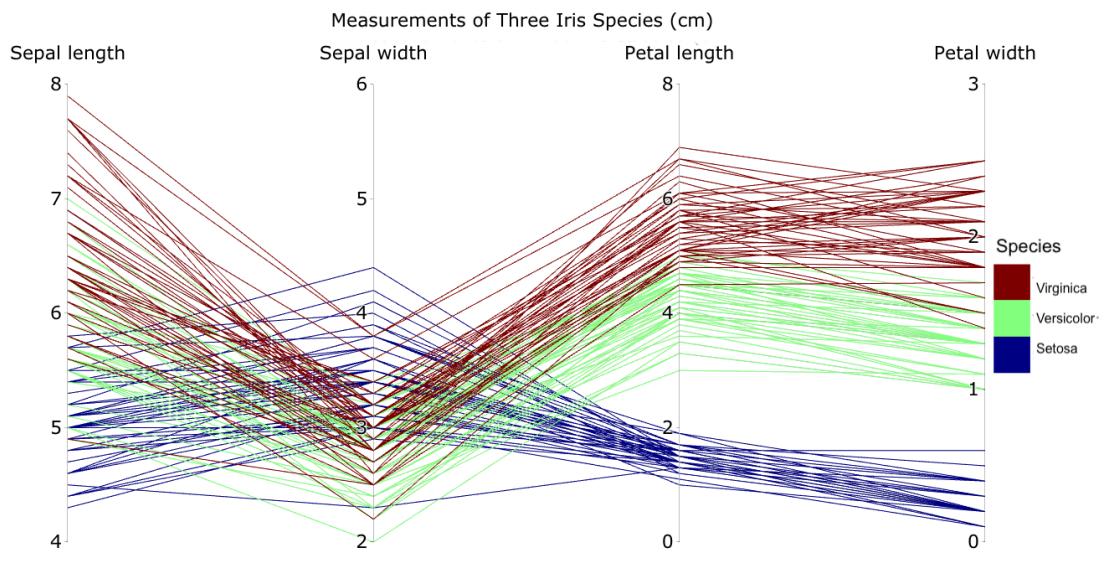

- It has too many axes
- There is no color legend
- There are too many colors
- There is no problem with this chart

What is missing from this chart?

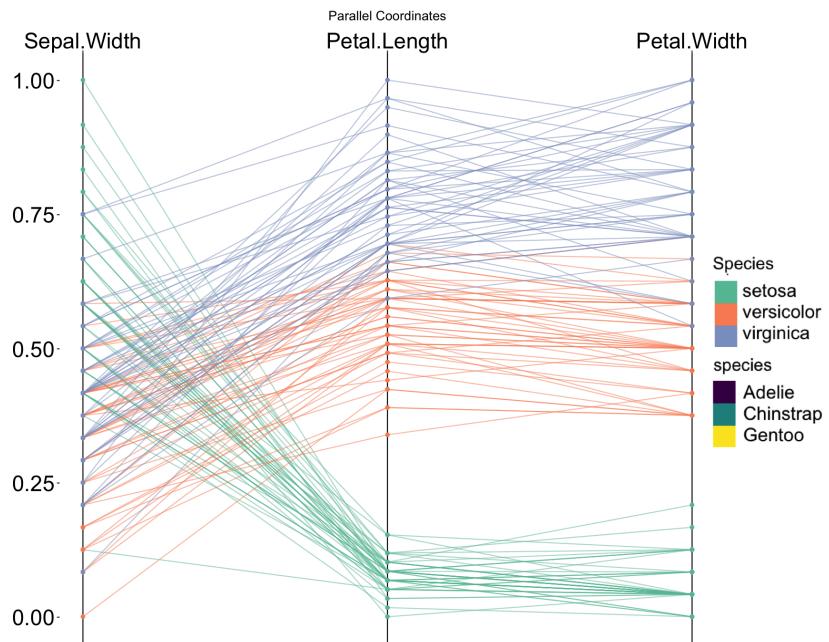

- The legend title is missing
- The axes labels are incomplete
- There is nothing missing in this chart
- The color legend is missing a label

What is missing from this chart?

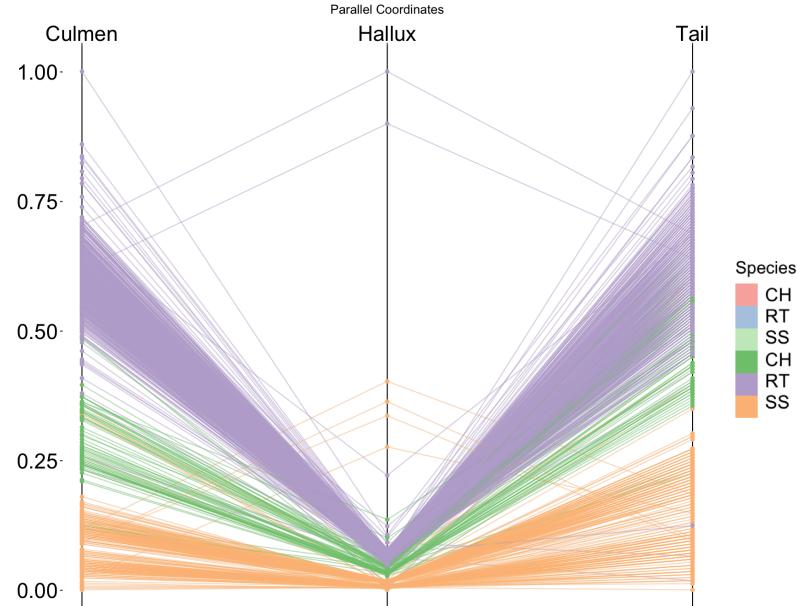

- One of the axes is flipped compared to the others
- This chart has too many colors
- The legend is incorrect
- Nothing is wrong with this chart

Name one problem with this chart.

- There are too many legends
- The axis labels are too small
- The slope of the edges is too high
- The chart is missing one of the axes

What is wrong with the following parallel coordinates chart?

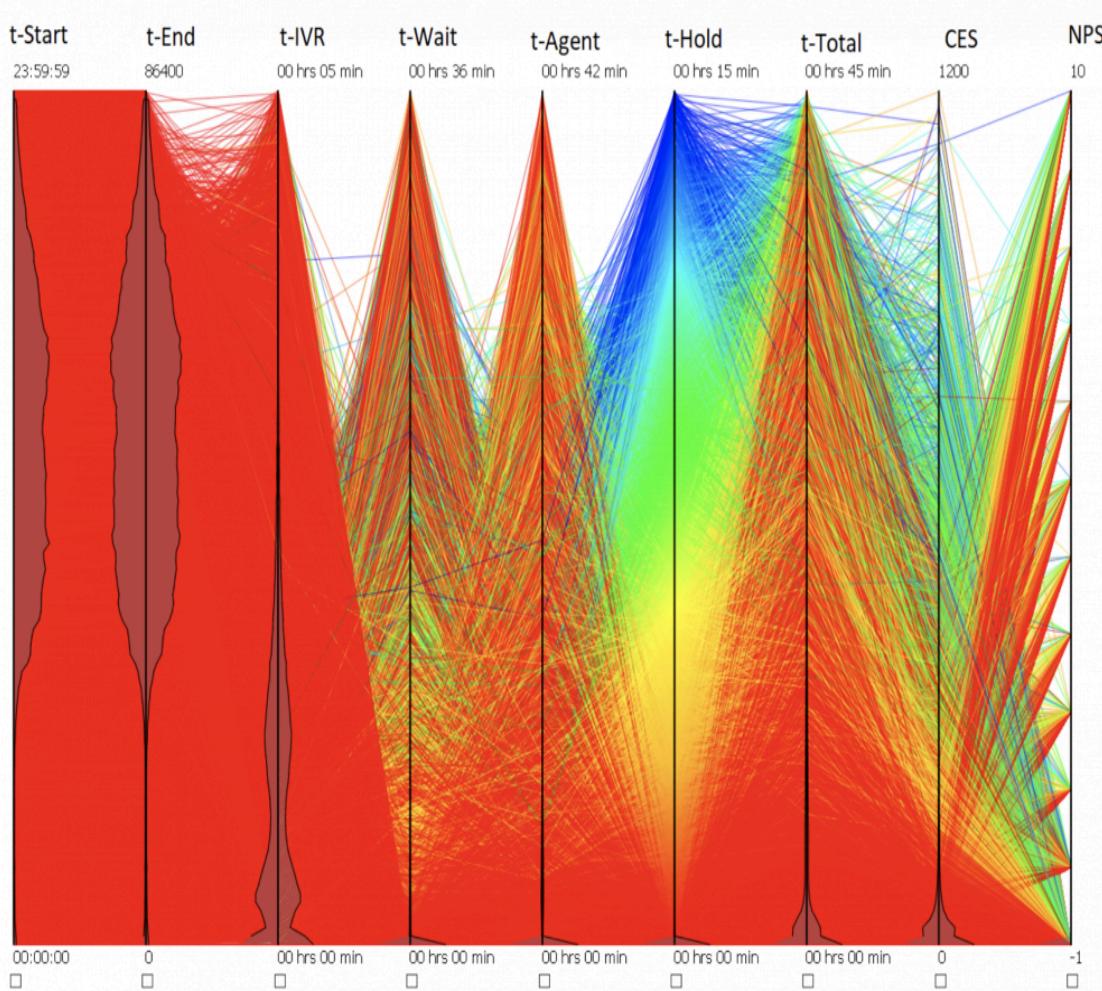

The color legend is repetitive

The chart needs a legend

There is too much data on the chart

There are too many variables in this chart

What is wrong with this parallel coordinates chart?

Describe all the problems that you can find with this chart.
